- 11.00 → we are in STP, so we wait for sweet time which is 8:00am to 12:00pm we aim
- 12.00 for Reversal because market tap into 1H Discount FVG. After tapping +FVG we
- 13.00 target Buy stops for BSL. From 9:00AM to 10:30AM is that sweet spot for Reversal.
- 14.00 → In m5TF mss happened hence STP align with LTP & TTP, it gives High Probability
- 15.00 setup. we got our bullish OB, FVG inside this sweet spot Price retraced this
- 16.00 Bullish array & continue move up.
- keep your entry inside the specific time
- 17.00 Zone like 8:00AM to 12:00PM consistently but if you take your entry outside of this
- 18.00 time it not give good accuracy.
- Draw out the mitigation Block from sell side
- Curve & they align with those fresh
- PD Arrays from on Buy side of curve.

10:40:- 8:00AM to 12:00PM mein Continuation ya Phir Reversal hoga kaise Pata chalega?
